

How do we connect a Bluetooth Square reader?

Modified on Mon, 23 Jun at 5:00 PM

1. Open the Trail's End app. Tap the profile icon in the upper right corner and go to the Hardware section.

2. Tap on the 'Square' button. Allow the requested permissions:
 - a. Location
 - b. Microphone
 - c. Bluetooth
3. Tap the 'Pair a reader' button. Follow the instructions on the screen.
 - a. Press and hold the button on your reader until the lights flash orange.
 - b. Then release the button and place the reader next to this device to pair.

4. Look for the confirmation message that the reader is paired. Congrats! You're ready to return to the app dashboard and make a sale.
