

**Safety Enhancements at our Properties**

The Patriots' Path Council has made numerous safety enhancements at Mount Allamuchy Scout Reservation, Winnebago Scout Reservation and our Council Service Center to protect our Scouts, leaders, families, visitors and staff. Our goal is to raise awareness of safety and to safeguard our constituents so that they feel comfortable participating in Scouting activities at our properties. Our council has been nationally recognized for our proactive approach and will continue to add safety enhancements as ideas are presented by industry experts as well as Scouters. These ideas will be reviewed and if appropriate implemented by our volunteer and professional leadership along with security experts.

**Phase 1 - 2023-2024**

- Security cameras in public areas of our camps
- Safety and electronic surveillance assessments by law enforcement agencies
- License plate reader / movement detector at Winnebago Scout Reservation
- Established hotline to report YP incidents - local number direct to Scout Executive
- Wrist band systems for year-round usage to help identify different groups in our camps
- Safety posters in public areas and campsites at our camps
- Guard structures at both of our camps

**Phase 2 - 2024-2025**

- Expert training provided to our camp ranger's dog to detect electronic equipment
- License plate reader / movement detector at Mt. Allamuchy
- Winnebago security gate (arm barrier) and signage installed
- Mt Allamuchy security gate (arm barrier) speed bumps and signage installed
- Security cameras in public areas of council service center

**Phase 3 - 2025 and beyond**

- Revised violent intruder plans at council camps and council service center
- Outdoor security cameras and license plate readers at council service center
- Access control system at council service center
- Updated signage at new property boundaries at Mount Allamuchy SR
- Cellular connected trail cameras at strategic camp remote perimeter sites
- Fortify internal communications through new fiberoptic solution at Mt. Allamuchy
- Enhanced lighting at camp entrances
